Spain
Intern in the Mediterranean gem of Valencia, gaining experience in the fields of psychology and social services. Opportunities may include: working with research projects in mental health or organizational psychology, youth psychology and social work, or non-profit organizations related to human rights, immigrants, or at-risk youth and their families.

UK—London
Intern in the global metropolis of London and work toward your career goals in psychology and social services. Opportunities may include: community services within mental health, substance abuse treatment, crisis, advocacy, outpatient treatment center, therapeutic and counseling programs.

New Zealand
Spend your summer interning in a breath-taking location near peaceful islands and rugged mountains. Gain experience working within support services for youth and adults; engaging in community development and training programs; supporting advocacy for rural women and minority populations; and learning about mental health policy.
